(Meridian)

West Manzano Grayburg
(Field)

Eddy
(County or Subdivision)

New Mexico
(State or Territory)

The elevation of the derrick floor above sea level is **3852** ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

This test was temporarily abandoned as of September 28, 1960. Several attempts to put it on production have been unsuccessful and it is simply standing shut in, with all equipment still in place. Said equipment consists of a tubing head and 2" upset tubing with a 2000# test orbit valve.
