Re: Gas-Oil Ratio Test, Hanson  
Fed. No 1-Unit D, Sec. 12-  
16S-30E, W. Henshaw-Grayburg  
Pool, Eddy County, New Mexico

Gentlemen:

As the subject well is located within one mile of the West-Henshaw-Grayburg Pool, it will be necessary to take and to file a gas-oil ratio test on the well. (See Rule 301, Commission's Rules and Regulations, enclosed.)

This matter should have been called to your attention earlier but it has somehow escaped our attention until now. Please file the results of the test with this office within thirty (30) days.

Very truly yours,

Oil Conservation Commission

RLS/sa  
Encl: NMOCC Rules & Regulations
