The elevation of the derrick floor above sea level is ______ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

On April 20, 1997 we ran 478" of 10 3/4" GD Srd thrd 32,758 mixed HS & HS now chains to 484" and compared with 50 any compart and 200 lbs calt.

After Standing communicat for 15 hours, we drilled plug, bailed hele down and re-rea bailer.

is shut-off proved susplate drilling was researed.

Commuting was done by Deaton 011 dell Commuting Co.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
