Subject: Completion Forms
Shell et al Henshaw Deep Unit No. 1
Eddy County, New Mexico

New Mexico Oil Conservation Commission
207 Carper Building
Artesia, New Mexico

Attention: Mr. M. L. Armstrong

Gentlemen:

Attached are forms C-104 and C-110 on our Henshaw Deep Unit No. 1.

Because of the rapidly declining reservoir pressure in the subject well, we have not been able to obtain a satisfactory absolute open flow potential test. Consequently, a Form C-122 is not included with the above forms.

Phillips Petroleum has agreed to take the remaining gas reserves from this well at the rate of 600 MCF per day. At this rate it is estimated that the Devonian horizon will be depleted in 30 to 60 days.

Very truly yours,

A handwritten signature in dark ink, appearing to read 'R. L. Rankin', written over the typed name.

R. L. Rankin
