U. S. GEOLOGICAL SURVEY  
ARTESIA, NEW MEXICO

Gentlemen:

Enclosed are the following reports for the captioned unit for which  
TEXACO Inc., as Operator, is delinquent in filing with the USGS.

1. Forms 9-331 for Square Lake "31" Unit Well Nos. 1331, 2231, 2431, 3331, 4231, and 4431 giving Notice of Intention to convert producing wells to water injection and Subsequent Report of same.
2. Form 9-331, Report of changing Well No. 2 DeKalb Federal to Square Lake "31" Unit No. 3431, status of the well, and Texaco's plans for operating same.
3. Duplicate copies of monthly progress report (NMOC Form C-120) from date injection began in May, 1964.

Failure to submit the above listed reports is a regrettable oversight on the part of TEXACO Inc. and the proper control is now in operation to prevent future occurrence of similar delinquencies. Apparently, it was erroneously felt that the initial Forms 9-331 giving notice of intention to convert producing wells to injection wells were not necessary since USGS had approved the Unit Agreement; and failure to file these initial forms led to the oversight of setting up the proper procedure for filing subsequent reports with the USGS.

As previously mentioned, the proper control is now set up in our departments to eliminate future occurrences of this nature and we regret very much any inconvenience we have caused USGS in the Square Lake "31" Unit matter.

Yours very truly,

W.B. Hubbard  
District Superintendent
