RE: W. Square Lake Unit Tract 5 #8 (F-35-16-39)(3001504004)

Dear Sir;

In reference to the above listed well the provisions of NMOCD Rule 705.C. are quoted for your information.

705.C. Abandonment of Injection Operations

- (1) Whenever there is a continuous six-month period of non-injection into any injection project, storage project, salt water disposal well, or special purpose injection well, such project or well shall be considered abandoned, and the authority for injection shall automatically terminate ipso facto. [2-1-78...2-1-96]

Since the UIC Program does not authorize T/A status it is requested you submit a form C-104 returning it to production status and removing it from the UIC program. This will allow us to grant T/A status as you have requested.

Respectfully,

Gerry Guye
NM Oil Conservation Division
Field Representative I
