Re: Jackson State #6, Unit K  
36-16S-30E, Eddy County,  
New Mexico

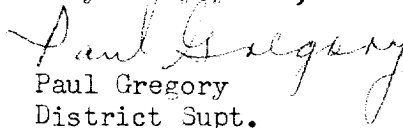

Dear Sir:

In answer to your letter dated January 28, 1960, we are requesting more time to retain this well on temporary abandonment.

At the present time we have a pilot water flood started in this field, and if the results prove favorable we plan to flood the entire field, at which time we shall reenter the Jackson State #6.

At the present time it would be to our economic disadvantage to return this well to production. In view of the above fact we respectfully request permission to leave this well temporarily abandoned.

Very truly yours,

  
Paul Gregory  
District Supt.
