Federal "A"
Well No. **2-9** is located **460** ft. from **N** line and **1900** ft. from **E** line of sec. **9**
North Square Lake Grayburg **Eddy** **New Mexico**
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is **4140** ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We desire to amend our casing program for this well, as reported last week by phone.

We plan to set 8 5/8" surface casing in the top of the Anhydrite at about 925' with 75 sacks.

We will then cement the 4 1/2" oil string thru the pay sand with 100 sacks.

Cement must cover the Red Sand
