Gentlemen:

We are in receipt of Oil Conservation Commission letter dated September 26, 1961, requesting a revised Form C-110 be submitted for the above subject well. Currently Federal 14-10 No. 5 is listed as undesignated in the Proration Schedule. 21.2

Our files indicate a revised Form C-110 was submitted September 13, 1961, and approved September 15, 1961. Information approved on this C-110 should agree with the November Proration Schedule.

Should additional information be required please advise.

Very truly yours,

S. J. Mathews, Jr.

CHANGE OF OPERATOR, EFFECTIVE JULY 1, 1965,  
FROM: STANDARD OIL COMPANY OF TEXAS, A  
DIVISION OF CALIFORNIA OIL COMPANY -  
TO: STANDARD OIL COMPANY OF TEXAS, A DIVISION  
OF CALIFORNIA OIL COMPANY

None needed

1. The first part of the paper discusses the importance of the research and the objectives of the study.

2. The second part of the paper describes the methodology used in the study, including the data collection and analysis techniques.

3. The third part of the paper presents the results of the study, which show a significant positive correlation between the variables.

4. The fourth part of the paper discusses the implications of the findings and suggests areas for further research.

5. The fifth part of the paper concludes the study and summarizes the main findings. The results indicate that the research objectives have been achieved and that the findings have important implications for the field.

6. The sixth part of the paper provides a detailed discussion of the limitations of the study and the strengths of the research design.

7. The seventh part of the paper offers suggestions for future research and practical applications of the findings.

8. The eighth part of the paper is the conclusion, which reiterates the main findings and the significance of the study.
