September 3, 1985  
We are carrying this well as temporarily abandoned.

To assign an allowable, we will need a Sundry Notice showing what was done to put the well back on production, and a Form C-104 requesting an allowable.

As soon as we receive the above paperwork, we will assign an allowable to this well.

Report casing pressure in flow of tubing pressure for any well producing through casing.  
Mail original and one copy of this report to the district office of the New Mexico Oil Conservation Commission in accordance with Rule 301 and appropriate pool rules.

Enter the amount of oil produced on the official test.  
all be produced at a rate not exceeding the top unit allowable for the pool in which well is  
encouraged to take advantage of this 25 percent tolerance in order that well can be assigned  
a unit.  
measured at a pressure base of 15.025 psia and a temperature of 60° F. Specific gravity base

I hereby certify that the above information is true and complete to the best of my knowledge and belief.
