Hobbs, New Mexico

Attention: Mr. Paul White

Re: Overproduction Etz
Federal No. 2-N,
19-16-31, Square Lake
Pool

Dear Mr. White:

The subject well was shut in, with no allowable, for a period of time. Subsequently, without filing for an allowable, the well was returned to production. Therefore, all the oil produced from this well since its return to production is overproduction. An allowable may be obtained by filing Form C-127 requesting the same. Allowable equal to the wells ability to produce may be assigned. We note that no allowable was shown on Form C-115, for this well, when production was reported and, cannot see why action was not taken at that time.

Very truly yours,

Oil Conservation Commission

R. L. Stamets
