Fed. Carper
Well No. **2** is located **1980** ft. from **N** line and **1660** ft. from **E** line of sec. **19**
NE 1/4 SW 1/4 (1/4 Sec. and Sec. No.) **146** (Twp.) **31E** (Range) **104W** (Meridian)
Square Lake (Field) **Eddy** (County or Subdivision) **New Mexico** (State or Territory)

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Plugged and abandoned well by screwing a 8 5/8 inch
bull plug in the top of the surface casing. Surface
casing was run and set with 50 sacks of cement on
the 20th of July 1959. Approximately 20 feet of
cement was left inside the bottom of the casing when
it was set and the plug has never been drilled out.

EP 24 1959

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
