It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "sidetracked" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research. 2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample size, the data collection methods, and the statistical analysis techniques. 3. The third part of the report is a presentation of the results of the study. It includes tables, figures, and text describing the findings of the research. 4. The fourth part of the report is a discussion of the results and their implications. It discusses the strengths and limitations of the study and provides suggestions for future research. 5. The fifth part of the report is a conclusion that summarizes the main findings of the study and provides a final statement on the importance of the research.	1.
