Re: Gas Transporter, Grier Lease

Gentlemen:

We are in receipt of Form C-104 showing the casinghead gas transporter for the Grier well No. 13 J, 20-16-31. This form was submitted in response to our notice of March 29, 1966, that the wells on the Grier lease had no authorized gas transporter. Upon receipt of the form and your accompanying note, we reexamined our records and found that well No. 13 did indeed have an authorized gas transporter. However, none of the other wells on the lease show the same on Form C-110 and it is difficult to tell from Form C-115 whether or not well No. 13 is the only well connected to Phillips system. Therefore, if any wells on the lease other than No. 13 are connected to the gas transporter, please file Form C-104 as previously requested. If none are, so inform us by return mail.

Very truly yours,

OIL CONSERVATION COMMISSION
