DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Under date of July 23, 1954 this intention to Drill was filed with the Artesia office of the U. S. G. S. On July 24, 1954 we received approval of this application. Since the well was not started within 90 days, we are asking for approval to extend the time. We will probably spud this well April 23, 1955.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
