Well No. 1 is located 1980 ft. from N line and 503 ft. from E line of sec. 30

30 16 31 N.M.P.M.
(14 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Aguila Lake Eddy New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

The above-described well has been plugged and abandoned. We put 20 sacks of mud in the bottom of the hole and set a cement bridge at 2600' with 5 sacks of cement. We mudded with 50 sacks of mud and 10 sacks of cement and set a cement bridge at 400' with 10 sacks of cement, filled hole to surface with mud and set a marker with 5 sacks of cement. We recovered approximately 2000' of 5 1/2" casing and 3000' of 2" tubing.
