In re: BTA Oil Producers'
Kennedy Lease, Section 34,
T-16-S, R-31-E, Eddy County,
New Mexico

Gentlemen:

During the month of November, 1961, BTA Oil Producers filed form C-126 with the Oil Conservation Commission requesting permission to run 524 barrels of recovered load oil from the above referenced lease. This form C-126 was approved on November 13, 1961.

In our reports to the Oil Conservation Commission and United States Geological Survey we deducted the 524 barrels of recovered load from our regular pipe line runs. When we received the oil run statement from Continental Oil Company we noticed that you failed to deduct the 524 barrels of oil from your statement, therefore, our reports do not coincide. We would appreciate your filing a corrected report.

Yours very truly,

Kathy Hayes
