Attn: Mr. W. A. Gressett

Dear Sir:

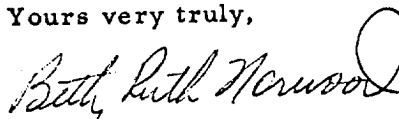

Bill Jones Oil Company requests that the High Lonesome Waterflood, High Lonesome Queen Field, consisting of the Davis Federal lease, Atkins State lease, Donahue Federal lease, and the Skelly State lease be reclassified as a produced water disposal project. Skelly State Well No. 14 will be utilized as a disposal well into the Queen formation.

We propose to file Form C-120A instead of Form C-120 which is currently being filed. The waterflood was unsuccessful and no water other than produced water will be injected from this date.

If you need additional information, please advise.

Thank you.

Yours very truly,

Betty Ruth Norwood
