Plan to run 2 3/8" /and set packer to pressure up casing and test well on
November 18, 1985. Plan to repair and test well to attempt to change to
producing status. If well is evaluated as being capable of producing oil in
commercial quantities, than the necessary equipment will be set and paper
work will be completed. However, if well is evaluated as not being repairable,
then well will be plugged according to regulations and a dry hole marker will
then be set.
