DETAILS OF WORK

(State names of and expected depths of objective sands, show sizes, weights, and thickness of proposed casing, indicate clogging jobs, cementing points, and all other important proposed work.)

Lost tools at 583 feet. Hole caved in on tools. Could not get back to tools, plugged No. 1 well with cuttings out of No. 1-X well. Skidded drilling rig twenty two feet south of old hole, spudded in No. 1-X well June 19, 1937 at 4.00 p.m.

Mudded No. 1 to surface, and leveled the ground over hole.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company **Keninger and Everett, as operators**
