Re: Harbold, Well #16 N,
26-17-27, Red Lake-
Queen Gas Pool.

Gentlemen:

As the result of Commission Order R 2873, the Red Lake-Queen Gas Pool was created for the Queen Zone production from the subject dually completed well. At this time we have completion information for the Red Lake (G-2A) side of the dual and the following forms must now be filed to obtain an allowable in the Red Lake-Queen Gas Pool;

Form C-128 - to show dedicated acreage ✓
Form C-104 - request for allowable ✓
Form C-110 - to show transporter ✓
Form C-122 - multi-point back pressure test for gas wells
to be filed within 60 days
Notice of Gas Connection

Further, to date we have not received the report of "Packer Leakage Test" and the Packer Setting Affidavit which are required on dually completed wells.

If you have any questions concerning this matter, do not hesitate to call upon me.

Very truly yours,

R. L. Stamets
