NEW MEXICO OIL CONSERVATION COMMISSION  
PACKER SETTING REPORT

RECEIVED

APR 27 1966

I, M. T. Hodgson, being of lawful age and having full ARRESTED ARRESTED ARRESTED  
Name of party making report

knowledge of the facts hereinbelow set out do state:

That I am employed by Baker Oil Tools, Inc. in the capacity of  
Engineer, that on March 4, 19 66

I personally supervised the setting of a 43A Model A-1 Lok Set Ret Casing Packer  
Make & type of packer

in Charles B. Read, Bogle Farms,  
Operator of well Lease name

Well no. 1 located in the Bunker Hill field,  
Eddy county, state of New Mexico, at a subsurface depth of  
3574 feet, said depth measurement having been furnished me by

Southwestern, Inc., Oil Well Servicing Company;

That the purpose of setting this packer was to effect a seal in the annular space between two strings of pipe where the packer was set so as to prevent the commingling, in the bore of this well, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer; that this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

M. T. Hodgson
