REPAIR WELL <input type="checkbox"/>	CHANGE PLANS <input checked="" type="checkbox"/>	(Other) <input type="checkbox"/>	

(Other)

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

No 8-5/8" surface casing was placed in this well since there was no loss of circulation in the formation above the top of the salt which is near 400 ft. This change was approved by the U. S. G. S. on February 18, 1965. On February 28, 1965, 250 sacks were used to cement the 5-1/2" casing from 3274 ft. On February 28, 1965, 50 sacks of cement were spotted at 400 ft. around the 5-1/2" casing by the use of a 1" string of tubing.
