Pool, Eddy County, N.M.

Gentlemen:

Enclosed please find your Form C-104 for the above-mentioned well. Please show the perforations, P.B.T.D. and casing shoe. In Section V you show actual production 40 barrels during the test, in the break down 20 barrels of oil and a trace of water. It appears an error has been made. ✓

Further, since this well was drilled with Rotary tools, it will be necessary for you to submit three (3) notarized tabulation of Deviation Surveys. ✓

Very truly yours,

OIL CONSERVATION COMMISSION
