Gentlemen:

The Notice of Intention to Abandon (form 9-331) for the above well has been received, and your proposed down-hole plugging program is hereby approved subject to the following conditions:

See attached program.

Please notify this office in sufficient time so that a representative may witness the plugging of the well.

A notice of your abandonment proposal has been furnished to the Surface Management Agency and, as soon as surface restoration requirements are received, your approved copy of the Notice of Intention to Abandon will be forwarded to you.

Sincerely yours,

Peter W. Chester

James A. Gillham
District Supervisor

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Administrative approval is requested to plug & abandon the Stallworth Oil & Gas, Inc. No. 5 Ada Nye Etz waterflood injection well, in the Square Lake (Grayburg-S.A.) Field, Eddy County, New Mexico.

This well was originally drilled in the southwest corner of the Etz lease for the purpose of injecting water in a cooperative waterflood of the Premier and Lovington Horizons and has functioned in that capacity since initial injection began on April 13, 1966.

The packer, set at 3087', (which served to separate tubing injection through the lower pay interval from annular injection through the upper interval) is stuck and it is extremely doubtful that it can be recovered. Please advise us of your recommendations so that we may proceed to plug and abandon this well.
