Re: Aid-State Com. No. 1-A (24-17-28)  
Aid Morrow Gas Pool  
Multi Point Back Pressure Test

Gentlemen:

The subject well was put on line August 13, 1971. We are required by Rule 401 to run a Multi Point Back Pressure Test to establish comparable open flow capacity within 60 days of initial connection. Because of freezing of the wellhead and mechanical problems on this well, Pennzoil United, Inc. respectfully requests an additional 60 days prior to running the required test. We do not believe that we can sufficiently test the well before October 12, 1971 because of the above mentioned problems.

Yours very truly,

PENNZOIL UNITED, INC.  
Western Division

J. C. Raney  
Petroleum Engineer
