Re: State Federal Gas COM No. 1
E-28-17S-28E
Empire Penn Field

Mr. W. A. Gressett
Supervisor and Oil & Gas Inspector
Drawer DD
Artesia, New Mexico, 88210

Dear Sir:

Attached is a one point back pressure test on the State Federal Gas COM No. 1, E-28-17S-28E, Empire Penn Field. We were unable to stabilize the flow rate at more than one point from this marginal well. Currently the well is shut-in as the sixty day temporary sales market to Southern Union for evaluation purposes has expired. This is the best data we can obtain at present on this well. Please advise if this data is not satisfactory.

Yours very truly,

V. E. STALEY
Area Superintendent
