Re: Brewer #28 Unit No. K ✓
Sec. 12, T-16S, R-29E
Undesignated Grayburg Pool
Eddy County, New Mexico

Dear Sir:

We request an exception to the Shut In Pressure Test Requirement of Commission Rule 402. This well is one of two gas supply wells for the High Lonesome Waterflood. The running of this pressure test would necessitate shutting in our Waterflood.

If, for any reason, this well is shut in during the next several months the test will be run and a C-125 will be filed with your office.

Sincerely,

Lendell N. Hawkins
Lendell N. Hawkins
Assistant Field Superintendent
