

DEVELOPMENT PLAN FOR SURFACE USE

1. Existing roads including location of the exit from the main highway.

The location will be serviced by a north-south county road approximately 5 miles north of Loco Hills where it intersects Highway 83 (see attached plat).

2. Planned access roads.

A new caliche road 20 feet wide and 9,240 feet long will be built from the county road going due east to the well location (see attached plat).

3. Location of existing wells.

(See attached plat)

4. Lateral roads to well locations.

(See attached plat)

5. Location of tank batteries and flow lines.

(See attached plat)

6. Location and type of water supply.

Water will be hauled by truck from Double Eagle water station located on county road approximately 1-1/2 miles west of location and 1 mile down county road toward Loco Hills.

7. Methods for handling waste disposal.

A pit will be used for waste disposal and will be covered and filled at completion of operations.

8. Location of camps.

None

9. Location of airstrips.

None

10. Location of layout to include position of the rig, mud tanks, reserve pits, burn pits, pipe racks, etc.

(See attached plat)
