

8. Ancillary Facilities: None required.

9. Well Site Layout: See attached plat.

10. Plans for Restoration of the Surface: Pit will be back-filled after drilling and completion operations are terminated. If well is a dry hole, anchors will be pulled or cut off below ground level. Location will be leveled to original contour.

11. Other Information: This location is in an area of some salt grass, native grass and a lot of gyp surface, should require very little dirt work other than digging of the pit.
