Bill

Yates Petroleum Corporation
207 South Fourth Street
Artesia, New Mexico 88210

Attention: Mr. Johnny M. Morgan

Gentlemen:

This is with reference to your letter of April 16, 1980, wherein you request approval to retain your Mitchell "IN" Well No. 2 located in Unit I, Section 23, Township 17 South, Range 25 East, Eddy County, New Mexico, as a dual completion with the East Eagle Creek Atoka-Morrow perforation shut-in while disposing of water into the Devonian formation.

This office has no objection to this proposal providing you install a pressure gauge on the tubing-casing annulus and conduct a suitable tracer survey at least once yearly.

Yours very truly,

*Johnny Morgan will notify us in time
to witness survey*

JOE D. RAMEY
Director
