(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any
proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-
nent to this work.)*

Because of rotary rig availability, it is impossible for us to
spud before expiration date of this lease. We are asking permission
to drill a Queen test to 900', leaving our casing program as approved.
If production is encountered, we will produce the Queen, in this well.
If not, we would like to leave the hole in condition to drill to the
original objective. We will use cable tools to drill this Queen test
and daily reports will be submitted to USGS as needed to comply with
the holding of this lease.
