Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

2-1-78

We are requesting permission to suspend operations at this point. We have drilled into top of the Queen section at approximately 600' and encountered more water from 600' to 610'. Have drilled to 656' TD. Some stain from 650' to 652', test no value. We would like to suspend operations until we can get a rotary to drill onto original intent of 8800'.
