Re: Beard Oil Company #1 McCaw
SW NE Section 18-17S-24E
Eddy County, New Mexico

Dear Mr. Gressett:

Concerning the seeming discrepancy in information furnished on your Form C-105 as to the formation perforated in the above referenced well, it was our intention to delete the printed word "Mississippi" on the back of the form and insert "2nd Atoka Sand" in its place. Regretably we failed to complete this exchange on the forms mailed to you, and thus we are enclosing herewith corrected copies of C-105, which we will appreciate your substituting for those previously furnished.

Also enclosed are three copies of Deviation Survey report, as requested in your August 21st letter, together with one set (Simultaneous Dual Laterolog Micro-SFL and Simultaneous Compensated Neutron-Formation Density) of the electric logs run in the #1 McCaw.

Mr. Vater is not in the office today, however, he will return Monday, August 28th, at which time completed C-103 Forms will be forwarded to you.

Sincerely,

Thomasine L. Garrett (Mrs.)
for BEARD OIL COMPANY
