(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Cut 4½" casing off at 3398' and laid down casing. Ran tubing open ended to 3447' and displaced hole with heavy mud. Then spotted 35 sacks Class "C" cement, top of cement plug at 3287'. Spot next plug with 65 sacks Class "C" cement at 1150', top of cement 80' inside of 8-5/8" casing (PBSD 920'). A marker has been set on the well, but the well was promised to the rancher for a water well. As soon as BLM has approved transfer of the well to Marion Lee Everhart, 1803 Sears Avenue, Artesia, New Mexico, we will remove the marker and surface plug.

18. I hereby certify that the foregoing is true and correct
