27 June 1979

Mr. Lendall Hawkins
General American Oil Company of Texas
P.O. Box 1928
Loco Hills, New Mexico 88255

Dear Mr. Hawkins:

Enclosed please find NMAS' Archaeological Clearance Report for General American Oil Company of Texas' proposed Stablien Well No.8, its access road, and the modification to the existing ranch road. Excepting a chert utilized flake and several pieces of chert debitage on the location, cultural resources were not encountered. Observed remains, while not diagnostic, represent the end-product of en passant activities and are termed isolated manifestations. NMAS is suggesting clearance.

If you have any questions pertaining to our report, please call my office. Thank you for asking NMAS to do this reconnaissance.

Yours sincerely,

for Dr. J. Loring Haskell
Principal Investigator
