17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Well is presently completed in Morrow perforations 8365-73 and is depleted.
We propose to set a CIBP at about 8330 and to perforate and stimulate the Atoka formation at 8036-41, and return well to production. If not commercial, will consider perforating and stimulating the Strawn zone at 7673-81.

8. I hereby certify that the information above is true and complete to the best of my knowledge and belief.

SIGNED Eddie L. Hartzog TITLE Engineer DATE 2-3-82
