Unit B, 32-16-27
Eddy County, New Mexico

Gentlemen:

Reference is made to your letter dated April 3, 1980 concerning the subject well. No work has been done since June 5, 1980, and recompleting in the Cisco is now considered unfeasible. An evaluation is currently being made to consider a pipe line connection to produce the Atoka or to plug and abandon the well.

If you have any further questions concerning this matter, please feel free to call me.

Sincerely yours,

Clark Vickers
Production Engineer
