Re: State 23 #1 23-17-28
Moncrief St. #1

Gentlemen:

The State 23 #1 well was drilled in December 1980 by W.A. Moncrief, Jr. The original plat showed the well to be located 1650 FSL 330 FWL of Section 23, Township 17 South, Range 28 East. Marbob plugged this well 9/6/84 and staked a location to be drilled near this well. Our Moncrief State #1 falls 1650 FSL and 330 FWL. Our surveyors checked the location twice and apparently the original plat for the State 23 #1 was incorrect as the well is actually 1657 FSL and 330 FWL.

Very truly yours,

Production Clerk
