Re: Change in Status
Jake L. Hamon State "16" Com #1
Eddy County, New Mexico
State Oil and Gas Lease No. B-6869

The District Director
Oil Conservation Division
P. O. Drawer DD
Artesia, NM 88210

Dear Sir:

We are attaching a copy of Jake L. Hamon's letter of March 16, 1981, transmitting Form C-105, Well Completion Report and log showing completion of subject well as a dry hole in March of 1981.

The intent of this letter is to advise you of a change in the status of the well. Riverside Co-op of Artesia, New Mexico, wishes to re-enter the abandoned wellbore and convert it to a fresh water source well. Amoco is assigning rights in the wellbore from the surface down to but not below 1250' to the Riverside Co-op for this purpose, and the wellbore will be changed from an abandoned oil well to a fresh water source well in the Riverside Water Co-op system.

We will appreciate your advising us if other information is needed on the change in status of this well.

Yours truly,

D. M. Basinger
