17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We plan to finish final 500' (1700-2200') of well using a reverse drilling Method instead of a cable tool. A steel pit will be used, thus, no modifications ~~and~~ to the location will be needed. Fresh H₂O will be added as needed.
