Re: Hinkle Federal  
#5-L-10-16-29  
Wildcat Premier Pool

Gentlemen:

When the above captioned well was completed and issued an allowable it was placed in the High Nitro Premier pool.

The High Nitro Premier is a gas pool and the well, Hinkle Federal #5 is an oil well. An oil pool has not yet been established as High Nitro Premier oil.

Please change your records to show the well as being carried in the Wildcat Premier pool until you have been notified that it has been placed in an established pool.

Sincerely,

A handwritten signature in cursive script, appearing to read "Mike Williams".

Mike Williams
