Lengtion: Luct L Geo. 27 Twp. 17 3	TH Pag. 28 FAST Cty. ESBY

11.

ST CONTRACTOR TIMES:

(1) first Section 271.105(b) of the Federal Energy Regulatory Cosmission Interim Regulations (1000) (and pursuant to the Natural Gas Policy Act of 1978 provides that, in order for an infill well to scalify as a new ensure production well under Section 103 of said Act, the Division must final, it is the commencement of drilling, that the well is necessary to effectively and efficiently drain a portion of the reservoir covered by the providen unit which cannot be so drained by any existing well within that unit, and must grant a waiver of existing well-spacing requirements.

(C) That by Order No. 2-6013, dated June 7, 1979, the Division established an administrative concedure wherely the Division Director and the Division Examiners are empowered to act for the Division and find that an infill well is necessary.

(3) That the well for which a finding is sought is to be completed in the <u>RED LAKE QUEEN GRAYBURG</u>
<u>CANNERC</u> Fool, and the standard spacing unit in said pool is <u>40</u> acres.
(4) That a <u>40</u> -acre promation unit comprising the <u>NM/4 SW 24</u>
of Sec. <u>72</u>, Twp. <u>17 SHUTH</u>, Rng. <u>29 EAST</u>, is currently dedicated to the <u>CALLER STATE WELL NO. 8</u>
Located in Unit <u>1</u> of said section.

(5) That this provation unit is (X) standard () nonstandard; if nonstandard, said unit was previously approved by Order No. MA

(6) That sail proration unit is not being effectively and efficiently drained by the existing weil(s) on the unit.

(7) That the drilling and completion of the well for which a finding is sought should result in the production of an additional 16,312 MCF of gas from the production unit which would not otherwise be recovered.

(3) That all the requirements of Order No. R-6013 have been complied with, and that the well for which a finding is someth is necessary to effectively and efficiently drain a portion of the reservoir covered by said promition unit which cannot be so drained by any existing well within the unit.

(9) That is order to permit effective and efficient drainage of said protation unit, the subject application should be approved as an exception to the standard well spacing requirements for the pool.

IT IS THEPFECRE ORDERPD:

ILLEGIBLF

(1) That the applicant is hereby authorized to drill the well described in Section I above as an infill well on the existing provation unit described in Section II(4) above. The authorization for infill drilling granted by this order is an exception to applicable well spacing requirements and is necessary to permit the drainage of a portion of the reservoir covered by said provation - unit which cannot be effectively and efficiently drained by any existing well thereon.

(2) That jurisdiction of this cause is retained for the entry of such further orders as the Division may deem necessary.

FOUL at Santa Fe, New Mexico, on this 20th day of JUNE
