17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS. Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.*

This notice is written verification of telephone conversation with Shannon Shaw, BLM Carlsbad this date. I will set 8 5/8", 24#, J-55, surface casing at 650' (250' deeper than APD). The reason for increasing the depth is to get a solid seat in the Anhydrite. Surface hole will continue to be 12 1/4". Cement will be circulated to surface.

18. I hereby certify that the foregoing is true and correct
