13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Santa Fe Energy Operating Partners, L.P. respectfully requests that this well be given a shut-in status for one year. The well is completed and capable of production, however, the high cost of installing a gas transmission line to the well location is uneconomic at this time.

This well was tested for mechanical integrity on January 7, 1993, and the test results submitted for approval on January 12, 1993.

4. Lhereby certify that the foregoing is true and correct Signed	Title _	Sr. Production Clerk	Date _	April 14, 1993
