

## MULTI POINT SURFACE USE AND OPERATIONS PLAN

SNOW OIL & GAS, INC.  
Duffield Federal Com., Well No. 2  
1880' FNL & 2230' FWL, Sec. 21-T16S-R27E  
Lease No.: NM-76988  
Eddy County, New Mexico  
(Development Well)

This plan is submitted with the Application for Permit to Drill the above described well. The purpose of the plan is to describe the location of the proposed well, the proposed construction activities and operations plan, to be followed in rehabilitating the surface environmental effects associated with the operations.

### 1. EXISTING ROADS:

- A. Exhibit "A" is a portion of a USGS Topographic Artesia Quadrangle map showing the location of the proposed well as staked. The well site location is approximately 19 road miles northeast of Artesia, New Mexico. There will be approximately 9 miles of paved highway and 10 miles of gravel oilfield roads.
- B. Directions: Travel east from Artesia, NM on U. S. Highway 82 for 9 miles to SPS power station. Turn north onto Eddy County Rd. No. 202, just east of the power station and continue north for 4 miles to the Southern Union gas pipeline R/W road. Then turn left (northwest) on the pipeline R/W road for 3.6 miles to a "Y" in the road. Turn west (left) at the "Y" for 2 miles to the Duffield Fed., Well No. 1 well pad; then take the pipeline access road from the southeast corner of the pad and continue northeast for .35 mile to the start of the proposed access road on the left. The road and will run approximately 300 feet to the southeast corner of the proposed well site.

### 2. PLANNED ACCESS ROAD:

- A. Length and Width: The proposed access road will be constructed to a 12 foot width (20' Max.) and an approximate length of 300 feet. The existing pipeline road will be upgraded at the same time.
- B. Construction: The proposed access road and existing pipeline road will be constructed by grading and topping with compacted caliche as needed and will be properly drained.
- C. Turnouts: One 20 foot wide turnout may be installed at the midpoint of the pipeline access road for passing.
- D. Culverts: None required.
- E. Cuts and Fills: None required.
- F. Gates, Cattleguards: None required.
- G. Off Lease R/W: There is an existing Right of Way permit No. NM-90417.

### 3. LOCATION OF EXISTING WELLS:

- A. Existing wells within a two mile radius are shown on Exhibit "C".
