Devon Energy Corporation
Evarts 33 Federal #1
1650' FSL + 990' FWL
Section 33-T17S-R27E
Eddy County, New Mexico

1. Existing Roads:

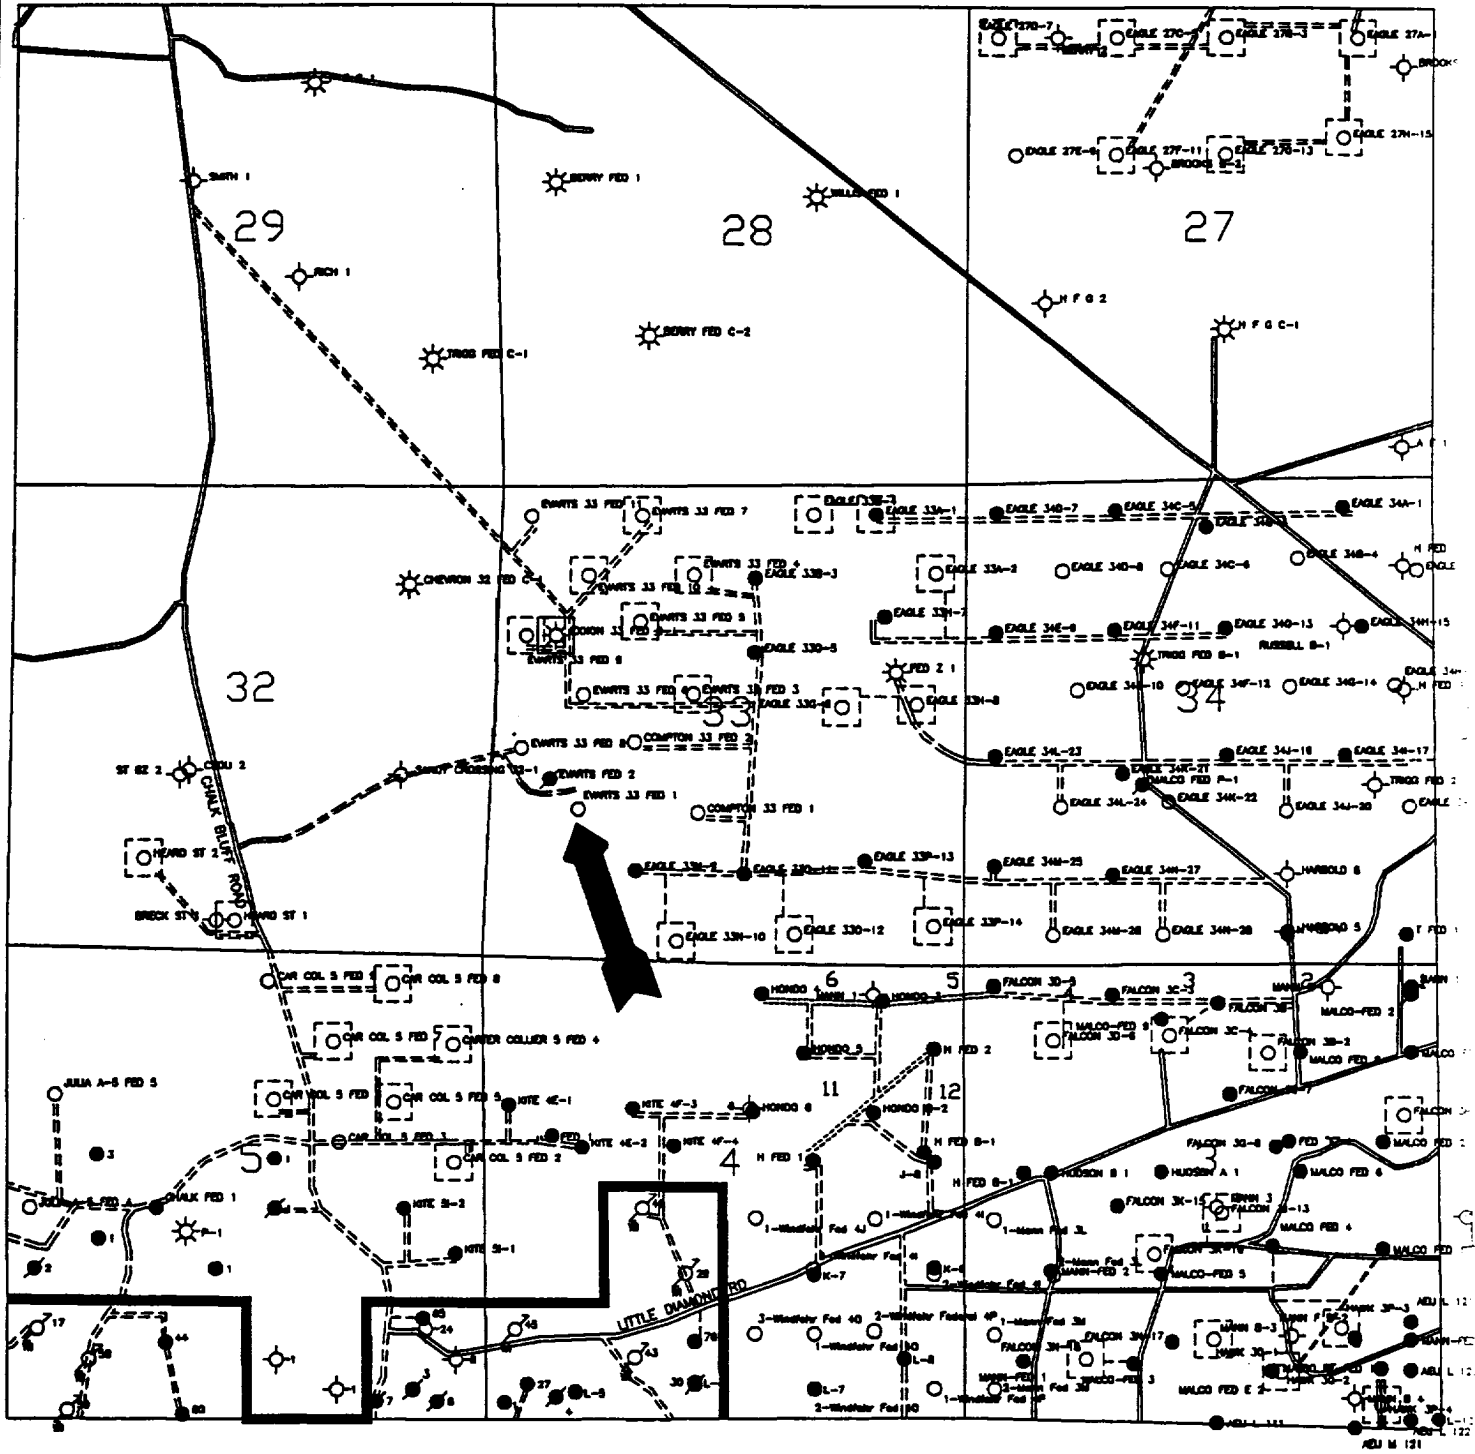

- A. The well site and elevation plat for the proposed Evarts 33 Federal #8 is reflected on Exhibit #2. It was staked by Basin Surveys, Hobbs, New Mexico.
- B. All roads into the location are depicted in Exhibit #3. Approximately 1000' of new road will be constructed to access the location from the existing lease road. No upgrades to roads other than the access into location from existing road will be necessary.
- C. Directions to location: Turn right (south) off Highway 82 onto Chalk Bluff Road. Go approximately 3.5 miles and turn left (east) onto the existing lease road. Travel approximately .40 mile northeast, past the location for the Sandy Crossing 12-1, continue on the new well access road for approximately 1000', into the location for the *Evarts 33 Federal #1*.

2. Proposed Access Road:

Exhibit #3 shows the new access road to be constructed from the existing lease road. It will be constructed as follows:

- A. The maximum width of the road will be fifteen (15) feet.
- B. It will be crowned and made of 6 inches of rolled and compacted caliche. Water will be deflected, as necessary, to avoid accumulation and prevent surface erosion.
- C. Surface material will be native caliche. This material will be obtained from a BLM approved pit nearest in proximity to the location.
- D. The average grade will be approximately 1%.

EVARTS 33 #1

January 20, 1998

Ernie Buttross
Devon Energy Corporation
20 North Broadway, Suite 1500
Oklahoma City, Oklahoma 73120

Dear Mr. Buttross

Enclosed please find your copy of Desert West Archaeological Services (DWAS) Clearance Report for DEVON ENERGY CORPORATION's proposed access roads. From Evert "33" Federal Well No. 6 to an existing pad Nearburg Exon "33" Federal Well No. 1; from Evert "33" Federal Well No. 1 to an existing pad with no location sign in T17S, R27E, Sections 32 and 33, NMPM, Eddy County, NM. Archaeological clearance is recommended for this project as presently staked. No further archaeological work should be required.

The Bureau of Land Management will review this report and make the final decision on the archaeological clearance.

If you have any questions, please call our office.

Sincerely,

Arifa Slate
as/td

Area: Block: Impact: NA Surveyed: NA Linear: Surveyed: 2,300' x 100' (1,000' on State land; 1,300' on Federal land). Impact: unknown within staked area		

14. a. Records Search

Location: BLM and Arms by Chris Owens.

Date: 1-20-98

List by LA No. All sites within .25 miles of the project: (Those sites within 500' are to be shown on the project map)

No sites located within a .25 mile radius of the project area.

b. Description of undertaking: Two (2) access roads were surveyed from two (2) previously surveyed well locations, to existing well locations. One, which is 500', from Evert "33" Fed. Well No. 6 to Nearburg Exon "33" Fed. Well No. 1, the other which is 1,800', from Evert "33" Fed. Well No. 8 to a location with no sign.

c. Environmental Setting (NRCS soil designation; vegetative community; etc.);

Vegetation: Creosote, Christmas tree cholla, prickly pear cactus, narrow leaf yucca, rainbow cactus, little leaf horse brush, horse crippler cactus, and various grasses.

Topography: Projects are located atop and down slope of a north / south trending low rise / finger ridge. The access road which is 500' is located on top of this area, and the other access road which is 1,800' slopes west toward a tributary of the Pecos River. Limestone and gypsum outcrops were observed throughout the project area.

NRCS: Soils: Reeves-Gypsum land-Cottonwood association: Loamy soils that are very shallow to moderately deep over gypsum beds, and Gypsum land.

d. Field Methods:

Transect Intervals: straight and zig-zag transects, spaced not greater than 15 meters apart

Crew Size: 2

Time in Field: 1.5 hours

Collections: N/A

15. Cultural Resource Findings:

a. Identification and description: No cultural resources were encountered during archaeological investigation.

16. Management Summary (Recommendations):

Archaeological clearance for Devon Energy Corporation's proposed access roads. From Evert "33" Federal Well No. 6 to an existing pad Nearburg Exon "33" Federal Well No. 1; from Evert "33" Federal Well No. 8 to an existing pad with no location sign in T17S, R27E, Sections 32 and 33, NMPM, Eddy County, NM, is recommended as presently staked.

I certify that the information provided above is correct and accurate to the best of my knowledge and meets all appreciable BLM standards.

Responsible Archaeologist
