

SURFACE USE AND OPERATIONS PLAN
SDX RESOURCES, INC.
Woden Federal # 1
660' FNL, 1650' FEL
Unit B, Sec. 23, T17S, R27E
Eddy Co., NM

1. Existing Roads:

- A. The original well site and elevation plat for the well is shown in Exhibit #2A. An SDX Resources Plat is shown in exhibit #2B.
- B. All roads to the location are shown in Exhibit #3A. The existing roads are labeled and upgrading of the road prior to drilling will be done where necessary as determined during the onsite inspection.
- C. Directions to location: E. of Artesia on Hwy. 82 ~ 8 miles . Turn left on CR 202. Go .5 M on 202 and turn left. Go 1 M and turn left to location.
- D. Routine grading and maintenance of existing roads will be conducted as necessary to maintain their condition as long as any operations continue on this lease.

2. Proposed Access Road:

Exhibit #3A shows the existing road.

No new road is necessary.

3. Location of Existing Wells:

Exhibit #4 shows all existing wells within a one-mile radius of this well.

4. Location of Existing and/or Proposed Facilities and ROW's:

- A. If the Re-entry is successful:
 - 1. The well will be tested and any necessary facilities (Triplex pump, 2- 500 bbl. FG brine tanks) will be located on the existing well pad.
 - 2. A Power line will be built to location and will be permitted by Central Valley Electric Company.
- B. Rehabilitation plans are as follows:
 - 1. The workover pit will be back-filled after the contents of the pit are dry (within 120 days after the well is complete).
 - 2. Topsoil removed from the drill site will be used to recontour the pit area to the original natural level, as nearly as possible, and reseeded as per BLM specifications.
