13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Yates Petroleum Corporation respectfully requests permission to make the following changes to the casing.

Run 7" casing to a depth of 7,203' and circulate the cement to surface. The hole will then be reduced to 6 1/8" and drilled to a total depth of 9,000'. If warranted, a 4 1/2" liner will be hung from approximately 6,800' down to 9,000'. The TOC for the production casing will be 7,500' and BLM will witness cementing.

Verbal approval for this Sundry was given by Alexis Swoboda, BLM on 12/18/02

Sincerely,

14. I hereby certify that the foregoing is true and correct
