Re: Federal Lease 065247 LC
Sec 3 tl7 r 29
Unit C

Dear Sir or Madame,

Please be advised that I wish to make application to change status of the pit at the tank battery on above described well. The pit in question is now designated as an emergency pit, and should be changed to a water disposal pit. The well in question is fresh watered with about twenty-five (25) barrels quarterly per annum. Most usually approximately twelve to fifteen barrels (12 to 15 barrels) is recovered when well is turned back on production. I further advise that the size of this pit is approximately fifteen feet, by twenty feet, and has a depth of approximately four feet, (15'x 20'x 4').

Your approval of above request will be appreciated.

Yours truly,

C.O. Fulton

COF/rms
